**Subject:** OLEM summary  
[Atmospheric Water Generators v4.docx](#)  
[ATT00001.txt](#)

This document contains a lot of information; cost estimates of production, potential scenarios for its use. Cissy, wonder if we can build some scenarios inventories and calculate life cycle costs for some of these possible uses?

I will try to find out if the OLEM author of this document would like to be a co-author on the project plan.

Jeff, do you happen to know the name of the OLEM rep who worked on thus?
